

# FAMILY CODE NIGHT™

## WHAT IS FAMILY CODE NIGHT?

Family Code Night is a free, school-family event in which students grades 3-8 pair up with their parent or guardian to do their first hour of coding, together. The effect is dramatic: parents and kids love making the transition from consumers of code to creators of code and families emerge eager to support computer science learning at home and at school. Our 8th grade Computer Science students will help facilitate this event.

## WHEN AND WHERE CAN MY FAMILY PARTICIPATE?

Frank Augustus Miller Middle School  
Tuesday, February 12th 6:00 pm Room 709

## WHY Computer Science IN RUSD?

By 2020, there will one million unfilled coding jobs in the US (US Bureau of Labor Statistics/USA Today). Computer science will be part of almost everything our kids do, from engineering to teaching, art to entrepreneurship.

## EVENT DETAILS

- To sign up please go to the Miller website or call 789-8181 ext 57005
- Devices will be available on site for use during the event.
- This event is open to all families with children in grade three or above.
- Child care will be available for young children. **Reservations required.**
